

STEAMER AND FORTY LOST.

Two Score Lives Probably Go Out in the Lynn Can-1-Boat Is Burned.

Victoria, B. C., Feb. 15.—The steamer Islander brings news that the steamer Clara Nevada, of Seattle, was burned in Lynn canal and forty men who were on board are supposed to have perished. The Nevada left Skagway for Juneau on Feb. 5, and when the Islander—which arrived from Comox yesterday morning—reached Juneau the Nevada had not arrived there. The day that she should have reached Juneau fire was seen on the waters of the canal, and the opinion is general that the flames were from a burning steamer.

Whether the passengers and crew reached land or whether they perished is not known. It is feared that they met with death, as there had been a terrible wind and snow storm in the north, and small boats could hardly live. Captain Irving, of the Islander, reports that the weather has been terrific.

Woman's Suffrage Association. Washington, Feb. 15.—Susan B. Anthony called the thirtieth annual convention of the National American Woman's Suffrage association to order at

the Columbia theatre yesterday. In Miss Anthony's address she spoke of the success so far attained in behalf of woman suffrage and urged all those identified with the movement to stand together for still better results. The grievances which women had against their common enemy—Man—were as great and as many as the early colonists had against King George.

No Religion in Missouri Schools. Jefferson City, Mo., Feb. 14.—Attorney Crow Saturday rendered an opinion in which he holds that it is in violation of the state law to have pupils recite the Lord's Prayer, or for the teacher to read the Bible as a part of the opening exercises in the public schools of the state. He holds that these exercises are forms of religious worship, and hence are forbidden during school hours.

Spaulding Must Wear Stripes. Chicago, Feb. 15.—State's Attorney Deenen yesterday received a telegram from Springfield announcing the affirmation by the supreme court of the verdict convicting Charles W. Spaulding of the embezzlement of \$28,000 in Macoupin county bonds, forming part of the endowment fund of the University of Illinois. Spaulding will now have to wear nankeen stripe trousers.

THE PITTSBURGH HORROR.

Recovering the Bodies from the Ruins—Many People Missing.

Pittsburgh, Feb. 14.—The results of Wednesday night's terrible fire and subsequent explosions on Pike street continue to grow in all their appalling details. At 10 o'clock Saturday night eighteen bodies had been removed from the ruins, nearly all of whom were found in ill-stated Mulberry alley. Saturday morning six bodies were found, and at 1:30 another was discovered, all of which were more or less mutilated by the contact with flying timbers and bricks. Following is a list of dead taken out Saturday: William Edward Finch, fireman of Company No. 12; George Edward Newman, Philadelphia Gas company inspector; William A. Doran, Professor James Moxon, David Benton Wreckerly, D. A. Geary and John Costine.

In the dispatches Saturday thirty-eight persons were reported missing. Of these four have been accounted for and three added to the list of the dead, leaving thirty-one still unaccounted for. To this army have been added the following missing reported since Friday: James Gibson, John Hunter, Charles Dauer and Robert McCabe. This swells the list of missing still to thirty-five. The impression is strong that many of the missing have met their death under the walls.

LOSS OF THE VEENDAM AT SEA.

American Liner St. Louis Rescues Her Passengers Just in Time.

New York, Feb. 14.—The steamship Veendam, of the Holland-American line, bound from Rotterdam to New York, stove a hole in her bottom yesterday week, either with her own shaft or by hitting a submerged derelict. After a terrific tussle with the pumps, in spite of which the water that poured into her kept gaining on the workers, and when she was within about five hours of sinking, providence sent along the American liner St. Louis. In the dead of night, with the sea whipped and tossed by a tempest, the passengers and crew, 212 in number, were transferred in safety; not a soul was lost or hurt in the slightest degree. The Veendam's captain, the last man to leave the ship, piled high in her cabin the tables and chairs and other furniture, and throwing kerosene oil all over the mass, fired the ship. The St. Louis sailed off just at gray dawn of last Monday, leaving the doomed ship almost on her beam ends, with the smoke curling up from her hatchways and sheets of flame eating eagerly what little woodwork there was left to burn. The St. Louis left her and reached here Saturday morning three days ahead of the time of the Veendam.

CONGRESS IN BRIEF.

Synopsis of the Proceedings of the National Lawmakers.

Washington, Feb. 12.—Consideration of the Indian appropriation bill was resumed by the senate yesterday and after being amended to some extent the measure was passed. The most important amendment to the bill was that offered by Pettigrew which, if finally enacted, will restore the free homestead law so far as it relates to Indian lands ceded to the United States for which lands the settlers have been obliged to pay the purchase price paid to the Indians. The senate adjourned to Monday. Bills were passed for the establishment.

Washington, Feb. 15.—Morgan yesterday reported adversely to the senate Allen's rider to the diplomatic bill, not because the purpose of the rider was objectionable, but because it was a rider and the senate had already passed a similar resolution. Allen made a speech for free silver. Harris introduced a resolution asking why the government had given up the idea of bidding in the Kansas Pacific; it went over under objection. In executive session Pettigrew continued his speech against annexation of the Hawaiian Islands.

The house adopted a resolution calling for information as to the condition of the destitute in Cuba, etc., and another asking for the correspondence relating to the German prohibition of American products. Lewis of Washington introduced a resolution demanding the recall of Minister De Lome. The rest of the day was devoted to the District bill.

Washington, Feb. 16.—The senate yesterday agreed to Harris' resolution asking why the plan of dealing with the sale of the Kansas Pacific had been changed. The balance of the session was spent in executive session on the Hawaiian annexation treaty.

The house passed the following bills: Payne shipping bill, intended to restrict our coasting trade to American vessels; the bill to prohibit loans by banks to any officer or employee except under certain restrictions; and the bill to legalize transmission through the mails of private postal cards with one-cent stamps affixed. It was decided to consider the Loud second-class mail-matter bill on March 1, 2 and 3, and that the vote on the bankruptcy bill shall be taken Saturday next.

THE DE LOME INCIDENT.

Resignation of the Spanish Minister Has Been Accepted.

Washington, Feb. 12.—The personal incident growing out of the publication of Senator Dupuy de Lome's letter to Senator Canalejas may be regarded as settled. This has been brought about by the short cablegram sent by Minister Woodford from Madrid, in which he states that the minister had resigned and his resignation had been accepted before he (Woodford) presented the request of the United States that he be recalled. The officials here feel an interest in learning the details of the happenings in Madrid Thursday, and are waiting for Woodford's promised full report. But unless this should contain some statement that is not now expected there is no disposition on the part of the government to protract the closing of this unpleasant incident, and it is not expected that anything in the nature of a demand for an apology will be made.

De Lome, in the letter, belittled President McKinley. The letter was stolen by Cubans and turned over to the United States authorities.

Washington, Feb. 16.—The late Spanish minister, Senator Dupuy de Lome, accompanied by Mme. De Lome, the two sons and a Spanish valet, left Washington at 4 o'clock yesterday afternoon for New York, whence they sail today for Liverpool.

Every man watches his balance in the bank, and his balance in his cash account, pretty closely. There is another ledger account that the average man entirely forgets to his own undoing. It is his account with death. It is more important than a profit and loss account, for it is a "life and death" account. It is a man's duty to himself and family to look up this account once every day and see that the balance is on the right side. It doesn't pay to let this account run on, and have it debited with indigestion and then impure blood, and finally nervous exhaustion, or prostration, or deadly consumption. When these diseases come it means a debit balance with death brought down in the blood red ink of another life sacrificed on the altar of foolish overwork and neglect of health. Dr. Pierce's Golden Medical Discovery makes the appetite keen, the digestion perfect, the liver active and the blood pure. It is the great blood-maker, flesh-builder and health-forgiver. It makes firm, healthy flesh, but does not produce corpulence or raise the weight above nature's normal. It cures 98 per cent. of all cases of consumption, bronchitis, throat and catarrhal affections. Honest dealers don't have substitutes.

"My wife had suffered for seven years with dyspepsia, sick headache and costiveness," writes Mr. Alonso D. Dunbar, of Dunbar, Merrimack Co., N. H. "We tried many doctors and many kinds of medicine, but all were of no avail. We purchased six bottles of Dr. Pierce's Golden Medical Discovery, which together with the 'Pleasant Pellets,' has entirely restored my wife's health. We cannot say enough to you in thanks for these valuable medicines."

It may save a life some day. Send 21 one-cent stamps, to cover cost of mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., for a paper-covered copy of Dr. Pierce's Common Sense Medical Adviser, cloth binding, to cents extra. Contains 1008 pages, over 300 illustrations—a valuable medical library in one volume.

Prostrated.

Overcome with Heart Disease While on the Street—Mrs. Wamsley, Wife of Rev. G. E. Wamsley, Seriously Affected—Has Been in a Precarious Condition.

From the New Era, Greensburg, Ind.

Mrs. Wamsley, wife of Rev. G. E. Wamsley, who lives on West Sheridan Street, Greensburg, Ind., has recently been cured of a very serious case of neuralgia of the heart and nervous prostration. A New Era reporter recently called on Mrs. Wamsley to learn the facts regarding her experience. Mrs. Wamsley said:

"I am 43 years old, and have been quite well until about six years ago, which was the time my youngest son was born. I began to lose my health then, and until recently never entirely recovered from my sickness of that occasion. My heart became affected, and there was continually a gradual sharp pain, and frequently it was so severe that I would involuntarily give vent to my agony in screams. These pains kept getting worse and caused nervousness. For years afterward, for a considerable period at a time, I would be confined to the house, and often to my bed. I could not endure excitement as I would become painfully nervous, and this would seriously affect my heart. Sudden pains would come on at any time of the day or night. Sometimes these would come on suddenly, causing me to involuntarily scream and fall down. It made no matter where I was, at home or down town. I would become helpless when thus attacked. I could not sleep nights, and my appetite was very poor.

"I tried different physicians, and my husband did everything he could for me. The doctors all said my trouble was neuralgia of the heart, resulting from nervous prostration, but none of them seemed to be able to do anything for it, except to afford temporary relief. I tried different proprietary

medicines said to be good for this disease, but none of them benefited me. Finally I noticed an item in the New Era stating that Mrs. Evans, who lives in the West End, had been cured of a similar trouble by using Dr. Williams' Pink Pills for Pale People, so I decided to try them. My husband bought a box, and I began using them. This was last fall. I felt considerable better after taking the first box, and kept on improving with the second. So we bought six more boxes, and I used them strictly according to directions, determined to give them a
